

1           Q.    Okay.  I just sort of wanted -- what I'm           14:55:48  
2           trying to clarify, though, is specifically with respect   14:55:50  
3           to Exhibit No. 2.  We've acknowledged that there were   14:55:53  
4           several exhibits attached to the letter.               14:55:57  
5                        And I want to make sure I know when you first   14:55:59  
6           read those exhibits.                                       14:56:05  
7                        Did you first read those exhibits about the   14:56:06  
8           time you got the letter?                                 14:56:09  
9           A.    Shortly thereafter, yes.  November, the last   14:56:12  
10          part of November, uh-huh.                               14:56:14  
11          Q.    Now, in Exhibit No. 3, the letter of June 4th,   14:56:17  
12          2001, it says that the -- well, let's see.             14:56:22  
13                        It says that, in the last paragraph, that the   14:56:42  
14          material was accurate when written and based on thorough   14:56:48  
15          research.   14:56:51  
16                        Do you see that?                             14:56:52  
17          A.    Yes, sir.    14:56:56  
18          Q.    What was the thorough research that you were   14:56:57  
19          referring to in that phrase?                             14:56:59  
20          A.    The documentation in Witness Lee's books that   14:57:07  
21          covered over at least 150 pages, over 400-and-some   14:57:13  
22          footnotes.   14:57:21  
23          Q.    Is that it?  Is that the total of the             14:57:28  
24          research?   14:57:32  
25          A.    I don't know if that's the total, but that's a   14:57:32
